TABLE OF CONTENTS

Attractions Page - Load	2
Attractions Page- Navigation Links	2

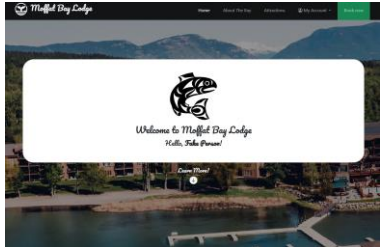

For each test, the developer should: provide a test description, a test objective, the developer name and date tested. For each step, fill out the actions to be taken and describe the expected results, and indicate yes or no for each step

Bravo Team Attractions Test Plan

depending upon the result. The peer tester should provide their name, date tested, indicate yes or no for each step depending upon the result, and a screenshot (thumbnail) of the result.

Test 1	Attractions Page - Load			
	Test Objective: Verifies input data meets requirements	Developer: Date tested: 2024-09-26	Peer tester: Torren Davis Date tested: 2024/09/27	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail + Screenshot
1	Navigate to the Attractions page URL	The page loads without errors, and all attractions are visible with their respective images, names, and descriptions.	Yes	Yes 
Comments	The Attractions page is fully functional, and runs without errors, displaying all four of the different attractions and activities on the website. This includes Hiking, Kayaking, Whale Watching, and Scuba Diving, all with their own unique description, and accompanying imagery.			
Test 2	Attractions Page- Navigation Links			
	Test Objective:	Developer: Date tested: 2024-09-26	Peer tester: Torren Davis Date tested: 2024/09/27	

Bravo Team Attractions Test Plan

Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Navigate to the Attractions page URL	The page loads without errors, and all attractions are visible with their respective images, names, and descriptions.	Yes	Yes 
2	Click the Navigation bar option "Home"	The home page should display	Yes	Yes 
3	Click the Navigation bar option "Attractions"	The application should go back to the attractions page	Yes	Yes 
Comments	The Navigation links are all working as expected, with each of them navigating to the proper page without failure or error. Navigation is working as intended.
